1. Introduction

1.1. About the RAMP Scheme

The **Raising and Accelerating MSME Performance (RAMP) Scheme** is a flagship initiative of the Ministry of Micro, Small and Medium Enterprises, Government of India, supported by the World Bank, aimed at strengthening the competitiveness and performance of Micro, Small and Medium Enterprises (MSMEs) across the country. The scheme focuses on enhancing the effectiveness of MSME support programs through institutional strengthening, improved market access, digital enablement, and targeted capacity-building interventions.

The scheme enables State Governments to design and implement strategic interventions that address key challenges faced by MSMEs, including access to markets, technology adoption, and integration into domestic and global value chains. By supporting policy reforms and capacity development initiatives, the scheme seeks to create a more enabling ecosystem for MSME growth and sustainable industrial development.

In Delhi, the **Delhi State Industrial and Infrastructure Development Corporation Ltd. (DSIIDC)** has been designated as the nodal agency for implementation of the RAMP Scheme. In coordination with the Department of Industries, Government of NCT of Delhi, DSIIDC is responsible for planning and implementing key interventions of the RAMP scheme aimed at strengthening the MSME ecosystem in the National Capital Territory of Delhi.

1.2. MSME Scenario in Delhi

Delhi has a vibrant and diverse MSME ecosystem that plays a critical role in the city's economic growth, industrial activity, and employment generation. The city is home to approximately **13.20 lakh MSMEs**, reflecting the strong entrepreneurial base and dynamic industrial environment in the National Capital Territory.

Out of the total MSMEs operating in Delhi, around **9.7 lakh enterprises are registered on the Udyam Registration Portal**, indicating significant formalization within the sector. A notable characteristic of Delhi's MSME landscape is the predominance of micro enterprises, which constitute **over 96% of the total MSME units** in the city. These enterprises operate across diverse sectors including manufacturing, services, trade, and emerging knowledge-based industries.

The MSME sector in Delhi is also a major contributor to employment generation, providing livelihood opportunities to **more than 6 million people**. Given its scale and economic importance, there is a strong need to further strengthen market access, business linkages, and brand visibility for Delhi's MSMEs to enhance their competitiveness in national as well as international markets.

1.3. About the Brand DL Initiative

In order to enhance the visibility and market positioning of Delhi's MSME sector, the **"Brand DL Initiative"** is proposed as a strategic intervention under the RAMP Scheme. The initiative aims to develop a unified brand identity for Delhi's industrial and trade ecosystem, highlighting the strengths and value proposition of MSME products and services from the city.

The initiative envisions the development of **Brand DL** through a collaborative approach involving industry associations, MSME clusters, anchor enterprises, and other stakeholders. The branding effort will focus on promoting key MSME products and services, while also highlighting themes such as Delhi's industrial efficiency, collaborative industrial ecosystem, and the city's cultural and economic uniqueness.

As part of this initiative, targeted market access interventions such as **Vendor Development Programmes (VDPs)** and **Reverse Buyer–Seller Meets (RBSMs)** will be organized. These activities will facilitate direct engagement between MSMEs and large buyers, including PSUs, private sector anchor companies, OEMs, and international buyers, thereby enhancing the overall brand value and competitiveness of Delhi's MSME ecosystem.

2. Objectives of the Brand DL Initiative

The key objectives of the Brand DL Initiative are:

- **Develop a Unified MSME Brand for Delhi:**
  To conceptualize and develop a strong and recognizable **"Brand DL"** that highlights the strengths, capabilities, and unique value proposition of Delhi's MSME ecosystem.
- **Promote Sectoral Strengths of Delhi's MSMEs:**
  To identify and promote key products and services of Delhi's MSMEs through targeted branding and advocacy initiatives.
- **Enhance Market Linkages for MSME:**
  To facilitate business opportunities for MSMEs by organizing **Vendor Development Programmes (VDPs)** with PSUs, large private sector companies, and OEMs.
- **Strengthen Export Opportunities**:
  To promote international market access for MSMEs through **Reverse Buyer–Seller Meets (RBSMs)** with foreign buyers, trade missions, and industry platforms.
- **Encourage Ecosystem Collaboration**:
  To foster collaboration among MSME clusters, industry associations, anchor firms, and other ecosystem stakeholders for wider adoption and promotion of Brand DL.
